PROFESSIONAL SUMMARY

I'm a Financial Engineering undergraduate pursuing a Bachelor of Business Management in Financial Engineering, alongside a BSc (Hons) in Software Engineering, with a strong foundation in financial analysis, quantitative techniques, and data-driven decision making. Experienced in applying programming and analytical skills to financial modeling, business analytics, automation, and fintech-related solutions. Actively seeking a finance or financial engineering internship in investment analysis, risk management, or corporate finance to contribute to high-impact financial operations.
